

3s optical module

Overview

To tackle these challenges, Huawei has launched its StarryLink optical modules for data center networks, featuring three robust capabilities: spanning, stable, and secure, delivering a "3S" high-quality network experience for enterprises. This launch took place during the data center session themed "Building New Data Centers in the Intelligent. BARCELONA, Spain, March 6, 2025 /PRNewswire/ -- At the Mobile World Congress 2025 (MWC 2025), Huawei launched the StarryLink optical modules, designed to enhance network experiences with "3S" quality (Spanning, Stable, Secure). Through rigorous quality control and end-to-end R&D and manufacturing, Huawei's StarryLink optical modules. 3S PHOTONICS is the leading world manufacturer of laser chips, optical discrete modules and components for undersea telecommunication networks.
