

500-meter emergency optical cable

Overview

This is 500 metres of 3mm steel armoured single mode fibre optic cable. UV stabilised with a Gray PVC Outer, G657A - LSZH, and the operating temperature is between -40°C and $+60^{\circ}\text{C}$. The Haile Single-mode 2-core Field Fiber Optic Cable is designed for reliable outdoor emergency training and rapid deployment scenarios. For more details please use. OCC is pleased to introduce the Modular Advanced Reel System (MARS), the industry's first lightweight cable deployment reel system designed specifically for the demanding needs of harsh-environment fiber optic installations. Unlike traditional metal-style reels, MARS is a lightweight, modular. Single armored tactical optical cable with the characteristics of strong tension stress, strong compressive resistance, high flexibility, bending resistance, used for tactical field, communication between radars or oil field, mining work place.
