

## AC distribution box SPD model

### Overview

The AC SPD box with integrated PUSH IN connection technology ensures fast connection of the cables to the surge protection and offers high flexibility for use in PV systems and charging stations. It also reliably protects data lines from overvoltage. 180 x 130 mm (Small) 180 x 130 mm (Small) 180 x 130 mm (Small) 180 x 130 mm (Small) Select SL3 systems feature selenium-enhanced surge protection along with a powerful ISM (Integrated Suppression Module) that offers protection up to 600kA per phase for various voltage types in NEMA Metal or Stainless Steel enclosures with Disconnect options. Additional capabilities include. Our AC distribution boxes are equipped with the true AC breaker and AC SPD from 220V-400V. For years, we. We can help protect both AC & DC charging infrastructure, including wall boxes, bus charging stations, communication electronics, and charge controllers and batteries. Battery storage systems are essential to countless U.
