

Beware of electric shock

Overview

Our customisable electrical hazard labels and stickers are an ideal solution when specific warnings are necessary. Perfect for tagging equipment, machinery, or electrical panels, these labels are available in self-adhesive options that adhere securely to various surfaces. Durable and long-lasting, these labels ensure electric shock risk warnings remain visible. Our range of electrical warning signs includes everything from high-voltage warnings to general warning signs for electric shock risk. Available in self-adhesive and rigid plastic options, our signs are designed to withstand challenging work conditions while providing lasting visibility. Whether you need a “Danger of Death” or an electricity sign. Our Danger High Voltage signs are crafted to ensure maximum visibility. Using bold colours, universally recognised symbols, and durable rigid plastic materials, these signs effectively communicate the electrical danger to anyone nearby. These weather-resistant signs are suitable for indoor and outdoor use, providing an effective solution for high-risk areas. Electrical safety remains a top priority in environments where live circuits and equipment pose a danger of death. Our Electric Shock Warning and Caution Electric Shock signs offer essential warnings for these areas, with sharp graphics and clear wording for immediate understanding. These electrical safety signs ensure safe handling practices near electrical hazards. Electrical hazards are common in both indoor and outdoor settings. Our Hazardous Voltage signage, crafted with UV-resistant and weatherproof materials, provides reliable safety information in various environments. Built to endure harsh weather, these signs remain clear and effective, alerting employees and visitors to electrical danger in industrial settings.
