

# Cost Standard for Armored Optical Cable Laying

## Overview

Whether you need singlemode, armored, or indoor plenum, this guide gives you the exact cost per foot of fiber optic cable — including installation — so you can budget without guesswork. For fiber cable materials only, expect \$0.52 per foot for wholesale bulk purchases, or \$1 to \$6 per foot at retail. The main cost drivers include material type, run length, trenching or aerial work, and any required permits or inspections. But when it comes to protecting your fiber optic network from rodents, construction damage, and harsh weather, the difference between these two cable types can mean the difference. Let's be real: If you are wondering “how much does fiber optic cable cost” for your next project, you've probably seen quotes that make zero sense. 05 a foot, while a domestic distributor is asking for ten times that.
