

Democratic Republic of Congo Connectivity Optical Cable Project

Overview

The Democratic Republic of Congo (DRC) has launched a €66.55 million fibre optic cable project, a significant leap towards enhancing its digital infrastructure. Funded by the African Development Bank (AfDB), the initiative boosts the country's ambition to become a digital hub in Central Africa. 5 million people living in the eastern regions of the Democratic Republic of the Congo (DRC) will benefit from faster, cheaper and more reliable digital connectivity thanks to new fibre-optic network investment being rolled out by Bandwidth and Cloud Services Group (BCS) and backed by THE Democratic Republic of Congo (DRC). The partnership, first agreed in 2023, is estimated to be worth about \$150 million. The. In Africa, as everywhere in the world, digital applications are increasing exponentially, highlighting the continent's digital divide. OTTs and telcos, such as Facebook or Orange, supported by funders and African governments, have joined forces to accelerate the deployment of high-speed.
