

# FC fiber optic switch sns2124

## Overview

Huawei OceanStor SNS2124 FC Switch SN2Z02FCSP is the most cost-effective choices for network expansion and comes with 8 active auto-sensing 1/2/4/8 Gbps FC ports, single power supply with E-Port ISL License, the other ports can be using the 8-port increment on demand license to. Huawei OceanStor SNS2124 FC Switch SN2Z02FCSP is the most cost-effective choices for network expansion and comes with 8 active auto-sensing 1/2/4/8 Gbps FC ports, single power supply with E-Port ISL License, the other ports can be using the 8-port increment on demand license to. The SNS2124 significantly increases performance and functionality for SANs at an entry-level price. Based on sixth-generation FC technology, combines auto-sensing 1, 2, 4, and 8 Gbps throughput with features that greatly enhance fabric operation. The evolutionary design provides these capabilities. Huawei OceanStor SNS2124 FC Switch SN2Z02FCSP is designed for small-scale independent SAN storage area to reduce enterprises' SAN costs while improving SAN scalability and ease of use. They are easy to deploy and manage, support automatic port sensing, and are compatible with virtual private cloud storage. ISL link aggregation: frame-based link aggregation combines multiple ISL links into one logical link for efficient bandwidth use and load balancing. High bandwidth: Unblocked architecture is used, allowing SNS switches to run at a rate in full configuration (full duplex). As a critical component of modern distributed file systems, this storage system supports secure, scalable.

## Article Content

OceanStor SNS2124 Data Sheet

Huawei OceanStor SNS2124 is a intelligent Fibre Channel (FC) switch applicable in a small and independent storage area network (SAN) and at the edge of a large-sized core switching network.
