

Floating distribution box

Overview

It is used for different types of modules and is applied to the working area subsystem. It uses embedded surface frame, easy to install and disassemble, it has protective door and dust free. (2) Flexible options including plastic waterproof distribution box and DIN rail waterproof electrical distribution box for versatile wiring needs. They are widely utilized in various fields, including solar energy photovoltaic systems, outdoor lighting installations. In keeping with the modern and linear design of the DISBOX-DT series, the ultra-flat front section blends almost invisibly into the building architecture. The surface-mounted damp room distributor is made of high-quality acrylester-stirene-acrylonitrile (ASA) and is therefore more weather-resistant than conventional ABS. Murrelektronik's passive distribution boxes provide a much more convenient method for connecting sensors and actuators to the control cabinet.
