

Function of Ladder-Type Cable Trays in the Philippines

Overview

Ladder cable trays feature two side rails connected by rungs. TSCA Electrical Group of Companies understands the importance of robust infrastructure, which is why we take immense pride in offering top-of-the-line cable tray and ladder systems to meet your diverse electrical requirements. Each cable tray type performs a different function and comes in various materials such as aluminum, galvanized steel, and FRP. What is Cable Tray?

A cable tray is a unit, or set of units. Swifts cable ladder has been tried and tested in installations of all sizes, around the world, from medium duty requirements in small, commercial buildings through to extra heavy duty installations in refineries, logistics centres and heavy industry applications. These rungs are spaced at regular intervals and provide a structure that resembles a ladder—hence the name.
