

Heat shrink head for distribution box

Overview

These cable heads utilize heat shrinkable materials that contract when heated, ensuring a secure and reliable seal around cable connections. Their importance spans across power distribution, industrial operations, and renewable energy sectors where durability and safety are. 3M Heat Shrink is a trusted technology to reliably insulate and protect your important applications. TE's heat shrink. CORE HEATSHRINK PRODUCTS COMPANY is a leading manufacturer, supplier & exporter of Heat Shrinkable Cable Jointing Kits & Power Cable Accessories under brand name BRENT for medium voltage energy distribution. From designing to on-field application, we offer rational, flexible and pragmatic solutions. A heat-shrink cable joint is used to connect two power cables safely and restore the insulation, protection, and continuity of the original cable system.
