

Huawei UPS System Power Supply

Overview

The HUAWEI Uninterruptible Power Supply 2000-A-2KTTL is a reliable, energy-efficient backup power solution designed to ensure that your equipment stays protected during power disruptions. The Outdoor Power Supply Solution for Large-scale Data Centers Indoor power supply and distribution system designed for medium- and large-sized DCs For medium- and large-sized DCs and industry critical power supply For medium- and large-sized DC and industry critical power supply For small- and. Power Control became a Value Added Uninterruptible Power Supply (UPS) Partner for leading global information and communications technology (ICT) solutions provider Huawei at the beginning of 2016. We work in close collaboration with Huawei's network energy team to deliver UPS systems, micro data. Matrix NAP Info chose Huawei's FusionModule2000 smart modular data center solution. This solution not only achieves lower carbon emissions and higher reliability but also enables smarter operation. A modular hot-swappable design simplifies Operations and Maintenance (O&M), reducing maintenance time to just five minutes and greatly improving system availability. The maximum. Ensuring reliable power supply, HUAWEI delivers reliable, efficient, convenient and intelligent UPS to cope with the disadvantages of efficiency, expansion, and availability hindrances, as well as high maintenance costs that traditional UPS brings.
