

# Installation price of computer room cabling system

## Overview

Professional network cabling in 2026 typically costs \$150-\$250 per commercial Cat6 drop, \$200-\$350+ per harder Cat6A commercial drop, and \$200-\$400 for isolated finished-wall additions where minimum service-call labor dominates. Open-wall pre-wire lowers the per-drop cost. Network installation costs vary significantly, ranging from \$2,500 to \$6,000 or more, as there's no one-size-fits-all network cable installation pricing model. Factors such as the length of cable needed, the. In May 2026 the estimated national average cost to Install Computer Network Wiring starts at \$291 - \$349 per wiring run. To estimate costs for your project: 1. Finished-wall retrofits. Need to budget the data cabling installation costs for your facility?

Don't know where or how to obtain a full network cabling installation pricing assessment?

Then try out our simple Structured Cabling Cost Calculator! Just by answering a few simple questions, our structured cabling cost estimate. Another method for estimating a cabling installation project is to develop a basic per-workstation cost based on data from similar projects. In this estimate, you can incorporate communications backbone costs into the per-workstation cost, or break that out as a separate backbone cost.
