

Mtrj fiber optic adapter

Overview

Flexible 6" adapter to connect an MTRJ cable to equipment designed to accept a LC connector. This adapter has a male LC connector to insert in the equipment port, and a MTRJ receptacle which will accept a standard MTRJ cable end. Fiber Optic Adapter Applications A fiber optic adapter a designed to connect two ends of a fiber optic cable with high precision, it is Widely applied in cable television network, LAN & WAN, fiber optic access network and video transmission. The MTRJ receptacle contains alignment pins so that a standard MTRJ. Corning offers a full line of factory- and field-installable adapters in a variety of mounting configurations to ensure compatibility with the housing, panel, outlet or faceplate being utilized. Supporting a variety of connector types, the adapters are ideal for cable assembly house and. The singlemode and multimode MTRJ adapters are used in two fiber optical interconnects and are therefore well suited for high density applications.
