

Sc Yin-Yang type optical attenuator model

Overview

The newly launched 25-year sc yin-yang attenuator is a precision passive optical component specifically designed for fiber optic communication systems. It offers selectable attenuation values of 1db, 2db, 5db, 10db, 15db, 20db, and 25db. It adopts a standard sc interface. 10pcs SC/PC Yin-Yang Type Plastic Optical Attenuator

The Yin-Yang Type Fiber Optic Fixed Attenuator is a type of connector that has one end as an adapter and the other end as a connector. This range of fixed attenuator is mainly used to reduce optical power. The new 2025 sc type attenuator offers a wide range of 1db to 25db options, making it suitable for various applications including optical communication and fiber optic networks. Features a male-female plug-and-play design for easy installation, making it ideal for network engineering, data centers.

Jumping attenuator used for radar anti-interference: It is a variable attenuator that attenuates sudden changes. They have a 100% positive review rate and 11 total positive reviews. What are your main products?

2. What is your delivery time?

Flytoplank: 2-3 days for stock, for the. Thus, in case of any infringement issue involved by the aforesaid products, all liabilities incurred shall be borne by the corresponding sellers on the third-party platform while Buy2you will not undertake any relevant, collateral or joint liability.
