

Singapore-based professional manufacturer of spectrometers

Overview

Based in the vibrant tech ecosystem of Singapore, Attonics Systems is a cutting-edge company that has emerged from the National University of Singapore. Our mission is to democratize the field of spectroscopy by simplifying and enhancing complex spectral sensor systems. Andor's spectrograph family is based on Czerny-Turner, Echelle or Transmission optical designs, and offers a range of highly configurable or highly specialised platforms to best suit your experimental requirements. Avantes is the leading innovator in the development and application of fiber optic. we offer high-end, rugged spectrometer solutions at an unprecedented form factor and price. Smaller form factor of our spectrometers allows for true measurements on-the-fly! Real-time sensing at a peak resolution of down to 1 nm - we bring research-level performance from the lab to the sample! Our. The leading Spectrometer Manufacturers in Singapore are listed in this directory. No Companies match the search criteria. Founded in 1996 as a service and demonstration division of Image Transforms Pte Ltd, Inscope Labs has been meeting the electron microscopy, surface analysis, and failure analysis needs. Analytik Jena is a leading provider of high-end analytical measuring technology, instruments, and products in the fields of biotechnology and molecular diagnostics and high quality liquid handling and automation technologies. Zeeman AAS for flame, graphite furnace and hydride technique.
