

Single-hole socket model for distribution boxes

Overview

NTC1 industrial plugs, sockets and couplers with a rated current of 16A~125A are suitable for power distribution of AC 50Hz/60Hz, 415V (max.) systems, and can be widely used in various fields such as mechanical equipment, construction engineering, data centers, energy. With an increasing investment in research and development (circa 5% of sales) and more than 3,700 active patents, the Legrand Group is focused on maintaining a high rate of new product launches that present innovative solutions to the market. built on local knowledge Global strength CORPORATE. ABB offers a total ev charging solution from compact, high quality AC wall boxes, reliable DC fast charging stations with robust connectivity, to innovative on-demand electric bus charging systems, we deploy infrastructure that meet the needs of the next generation of smarter mobility. ABB's Low. Use distributor boxes for quick and clear cabling in the field. Thanks to the status indicator, you have an overview of a large number of signals.
