

Wiring the Smart Gateway for High-Voltage Distribution Box

Overview

This guide provides essential steps for installing a smart gateway, hybrid inverter, and battery modules. It covers unpacking, tool requirements, mounting, wiring, and commissioning via the EP Cube app, ensuring connection with grid and solar power. Only trained or qualified persons with electrical engineering knowledge can work directly on the equipment. Operators should be familiar with national and local laws, regulations, and standards, and the compositions and operating principles of relevant systems. Before operations, please carefully. When performing any work (installation, mounting, start-up), all manufacturer instructions and in particular the Installation and Commissioning Instructions (EN1B-0205IE10) are to be observed. Rules regarding. Do you have a question about the Sigen Gateway HomeMax SP and is the answer not in the manual?

Page 1 Sigen Gateway HomeMax SP User Manual Version: 01 Release date: 2023-10-27 1 / 22. Installation of the GivEnergy All in One and Giv-Gateway must be carried out by a GivEnergy Approved Installer and in accordance with the IEE Wiring Regulations.
