

Yemen Fiber Optic Cable Establishment

Overview

In 2005 TeleYemen announced it would invest in the FALCON high-capacity loop cable system, which will improve Internet access, including broadband capability, and also expand international call accessibility. Infrastructure Since unification in 1990, efforts have been made to create a national telecommunications network. The state-run Republic of Yemen Television and Republic of Yemen Radio operate the country's television and radio networks, respectively. There are two state-run TV stations; two state-run national radio stations an. Yemen had 2.349 million Internet users in 2011, up from 295,232 in 2008, and 270,000 in 2006. These low numbers are attributed to the high cost of computer equipment and connections in combination with the po. TeleYemen is the exclusive provider of international telecommunications for Yemen—fixed-line and wireless mobile companies,, and Internet services—and is one of the mobile-phone operators. I.
